

Winter Rally School: Sweden

Begin 2011 on a high, with the ultimate driving experience:
Rally Driving on the picturesque frozen lakes of North Lötén, Sweden.

At Extreme Rally, we have over 10 years of experience in providing the very best in corporate packages, ranging from driving exclusive forest stages in the UK to snow covered stages in Sweden. Each winter the studded tyres go on and we head to North Lötén, Sweden for the most extreme rally experience, driving Mitsubishi Evos and Subaru Imprezas on the most exhilarating driving surface, ice! Our winter rally package is the ultimate corporate event, each package is unique, tailored to meet your every requirement and provides the very best tuition on the most exciting of rallying surfaces!

The Cars

The important part, here at Extreme Rally we don't waste our time or yours in cars that are not up to scratch. Our Group N Mitsubishi Lancer Evolutions and Subaru Impreza WRX STis are rally thoroughbreds capable of reaching 0-60 mph in under 4.5 seconds, being four wheel drive means they can take on the most extreme of stages and surfaces, and makes the ice experience even more exhilarating!

Over the past few years both the Mitsubishi Lancer Evolution and the Subaru Impreza WRX STi have been at the top of the rally world championships. The winter rally experience provides the chance to test out these supercars on our ice stages to see if you have the skill to get the very best out of these incredible cars. Keeping this experience as close and as authentic to world championship rally cars, the cars are fitted with specialised studded tyres, allowing tremendous grip whilst flying around corners and keeping you on the ice during extreme braking, getting your adrenaline flowing and makes this an experience to remember!

The Lake

The lake houses several fully prepared rally stages that include full hairpin bends, rapid straights and long flowing corners perfectly complementing the muscle and agility of the Evos and the Impreza whilst allowing you to put into practice your newly acquired power sliding skills!

In addition to driving these cars you will be given a high speed passenger ride by your instructor to show you how they should be driven. But be warned this once in a lifetime experience is not for the faint hearted!!!

Ice Karting

Your package will include Ice Karting on a lake near the hotel, this activity is one of the hottest après-ski activities in Sweden and is not to be confused with any mundane indoor karting experiences you may have had in the UK! These karts are equipped with fully studded tyres which ensure that you grip to the ice, but enable you to keep your speed into the corners challenging you to see just how big your power slides can be! This is the perfect introduction to the art of rallying on ice!
